**THE CREAMERY MEN**

CONVENTION IN SESSION  
AT FRESNO, CALIFORNIA.

Discuss Every Phase of All the Problems of Importance to the Creamery and Dairy Interests of the State — Legislation to Control Weights, Colorings and Adulterations Considered, and Educational Influences.

Fresno, Cal., Dec. 2.—Prominent creamery men from many parts of the state filled the assembly room of the chamber of commerce building this morning at the opening of the fifth annual meeting of the California Creamery Operators' Association. The call to order at 10 o'clock was followed by an address of welcome by Mayor L. O. Stephens, to which reply on behalf of the association was made by H. P. Glasier of Oakland.

At the conclusion of these formalities the convention listened to the presidential address of George G. Knox of Sacramento and the annual report of the secretary-treasurer, William H. Saylor of San Francisco. C. E. Hill of San Francisco, in an interesting paper, explained how the usefulness of the association might be extended to the creamery and dairy interests of the state. Committee appointments and other business of a routine nature occupied the remainder of the forenoon session.

This afternoon the convention listened to addresses as follows: "Proposed Legislation to Regulate the Weight of Print Butter, Water in Butter and Coloring," Jesse Durham of Salem; "The Importance of the Dairy Interests to the Development of the State," Arthur Briggs, San Francisco; "Proposed Legislation Relative to Agricultural Education," Peter J. Shields, Sacramento; "External Educational Influence Among Dairy Men," Dr. Leroy Anderson, director of the California Polytechnic school.

The convention will continue and conclude its sessions tomorrow.

**KING FOR 56 YEARS.**

Francis Joseph of Austria, Enjoys a Long Reign.

Vienna, Dec. 2.—Throughout the dual monarchy today there were celebrations to mark the 56th anniversary of the accession of Emperor Francis Joseph to the throne. Business was suspended generally in the capital, and in all the churches thanksgiving services were held.

The venerable emperor is now in his 75th year. Of late it has become noticeable that he is losing some of that physical vigor and robustness for which he has been noted throughout his long life. He continues, however, to take keen delight in his favorite sport of chamois hunting, and when in the capital he adheres strictly to his lifelong habits and customs.

Twice a week he gives audience to any of his subjects who may wish to consult with him. Their letters asking for an audience are sent to the emperor's private secretary. Inquiries are made as to the truth of their contents, and, if satisfactory, the writer, of whatever rank he may happen to be, is granted an interview with his sovereign alone. Nothing has done more to endear the emperor to his subjects than these informal audiences, through which countless wrongs have been quickly redressed, troubles smoothed away, assistance rendered, as well as frank, soldierly advice, and more distress relieved than the world will ever hear of.

**Y. M. C. A. CONFERENCE.**

Department of Theological Seminaries in Session.

Richmond, Va., Dec. 2.—The Eastern conference of the American and Canadian Young Men's Christian Associations of the Theological Seminaries began today at the Union Theological Seminary in this city.

During the three days' sessions the conference will discuss personal Bible study among theological students, the spiritual life of the theological student, the pastor as a missionary, colored evangelization, the student volunteer, America as a mission field and a number of other subjects relative to the Y. M. C. A. and its work.

A number of prominent divines and educators, both of this country and Canada, are taking part in the conference, which is the largest in point of attendance ever held by the organization.

**President Married 15 Years.**

Washington, Dec. 2.—With characteristic lack of ostentation, the president and Mrs. Roosevelt today celebrated the 15th anniversary of their marriage. That ceremony was performed at St. George's Church, Hanover Square, London, on December 2, 1886, by Canon Guthrie, a cousin of the present first lady of the land. Members of the family remembered the anniversary today by flowers and other gifts, but there was no observance of the occasion which in any degree took on a public character.

There is one rational way to treat nasal catarrh: the medicine is applied direct to the affected membrane. The remedy is Ely's Cream Balm. It restores the inflamed tissues to a healthy state without drying all the life out of them and it gives back the lost sense of taste and smell. The sufferer who is tired of vain experiments should use Cream Balm. Drug-gists sell it for 50 cents. Ely Brothers, 56 Warren Street, New York, will mail it.

**For Rent.**  
Four acres good garden and orchard, all under irrigation, at Echo, Or. Address J. H. Koonz, Echo, Or.

**The Gifts YOU WANT ARE HERE**

NOW IS YOUR TIME to save money. The above are but a few specimen prices to show the cuts made on every article in the stock.

**C. ROHRMAN COURT STREET**

**Osteopathy**

Osteopathy is a system of treating diseases by perfectly adjusting all parts of the body, thus giving the blood and nerve supply their natural liberty to carry on life.

It assumes, as a working basis, that God, in constructing the human body, was a workman capable of making a machine that will work, and until worn out will continue to work as long as all parts are kept in perfect order; and that when it fails to work some part is out of order.

This common sense you apply to your harvester, sewing machine and watch. Why not apply it to your body? Your harvester, sewing machine or watch will not run with parts bent or displaced. Why, any more, should your body work properly with a rib or vertebrae displaced; a muscle or ligament contracted or thickened? Is it not evident how the blood and nerve supply, the two agents on which every cell of the body depends for its life and activity, may be deranged? The cells not working properly, what of the organs composed of the cells? Do you realize why gallons of medicine have failed to cure you? A little thinking here, with a little common sense will change your idea of disease and its cure.

The Osteopath, with two years of hardest study, with one year of apprenticeship, is sent out as the skilled machinist to detect and restore the misplaced structures. When, if the working basis, God's ability to construct a capable machine, be true, the body will be in working order. Contemplate.

Literature sent on request.
